W. H. ALDRIDGE IS A CANDIDATE FOR alderman in the Third ward for the short term. Election to take place August 14, 1883.

FIRST EDITION.

TO THE FRONT.

Prospects of the Fort Worth and Rio Grande Road—Result of Yesterday's Conference.

A committee of gentlemen from Brownwood, composed of S. R. Coggin, C. H. Jenkins, T. P. McCord and Carter, were in the city yesterday for the purpose of conferring with the citizens of Fort Worth in reference to the construction of the Fort Worth and Rio Grande railroad. A few of the prominent business men assembled at half-past two o'clock to meet and confer with the gentlemen from Brownwood. Mr. A. M. Britton was called to the chair and J. S. Andrews appointed secretary of the meeting. Mr. Jenkins of Brownwood stated the object of the visit of the committee, and the anxiety of the people of that place for railroad connection with this city. After considerable discussion, on motion of Capt. M. B. Loyd, a committee of five was appointed by the chair to canvass the city and ascertain what amount could be obtained in subscriptions to the capital stock of the company. The chair appointed M. B. Loyd, W. J. Boaz, Thomas Roche, E. W. Morten and W. A. Huffman on said committee. Negotiations for foreign capital with which to construct the road have thus far proven a failure, and now that our own people have concluded to build the road with their own money, the chances of success are very much improved. The advantages of the road to this city are so patent that allusion to them is unnecessary. The moment work is commenced values of real estate in this city would be enhanced more than the amount necessary to construct the road. The people of Fort Worth should evince on this occasion the same spirit of enterprise that has characterized them in similar transactions in the past. If they do the road will be built.

SEWER WORK.

Another Appropriation Made by the City to Pay the Workmen.

The board of aldermen met again this afternoon in special session to make an appropriation to pay the sewer workmen. The city engineer was present and presented an estimate of the amount of work done and the amount of money wanted to pay the workmen for services since he had taken charge of the work.

The estimate footed up \$1,789.65, for laying pipe and digging trenches, and also included some extra work, for which a small sum was asked. The city engineer stated that \$600 was for work done before he took charge of the men, but it had not been paid and asked that it be allowed.

A discussion arose over this and several were in favor of not allowing the amount, but when the matter was more fully explained the objections were withdrawn, and the whole amount allowed.

Mr. Smoot stated that the pay roll for the week ending to-day was ready about \$700 more than he asked for, but Cleveland & Cameron had promised to make good the deficiency, and he would not ask for more than the estimate called for.

The estimate in giving items mentioned an item of "treaching, \$16,000." The board objected to such an indefinite statement and instructed the engineer, in the future, to make the estimate full and complete.

There was no other business before the board and it adjourned.

Yesterday's Fire.

The fire alarm sounded yesterday afternoon about four o'clock, but there was nothing serious in it. Some weeds near the freight depot caught fire, and the alarm was given as a precaution, many fearing the depot would be ignited. City Attorney Swayne and John Wilkes came near being seriously hurt by the hose carriage coming in contact with an obstruction on Third street near the opera-house.

No Quorum.

An effort was made to obtain a meeting of the board of school trustees yesterday evening, but a quorum failed to attend, and an adjournment was had until Monday evening, when it is hoped there will be a full board present, and the work of organizing for the next scholastic year commenced in earnest.

Thurbus Bordeaux peas is the finest in the world, try them.

COMBS, READ & CO.

PERSONAL.

H. W. Steptow, of Colorado, greeted his friends in the "Fort" yesterday.

M. C. Meahan, train master of the Rio Grande division, was in the city yesterday.

Mr. W. W. Pennington, a well known real estate dealer of Henrietta, was in the city yesterday.

Joe B. Loving came in to see the sights of "The Little Giant" yesterday (from the west), improved much in health since his last visit.

Mr. and Mrs. Yarbrough are two of the happy lot just at part. It is a eleven and a half pound boy. Mrs. Y. doing finely.

Mr. J. W. Putman (Slade) left the city this morning for Galveston. He will disport his graceful form in the salt sea waves a few days.

Jas. A. Stinson, of the New Mexico Land and Cattle company, was in the Fort yesterday on a short business trip, and paid the GAZETTE a pleasant visit.

Col. J. P. Hodgson, of Colorado City, one of the most extensive wool growers and sheep raisers in the state, is in the city and honored the GAZETTE with a call yesterday.

E. J. Yokam, editor of the evening Post, of Indianapolis, Indiana, who is in company with a party of gentlemen from that state and Illinois, on a tour through the state, called at the GAZETTE office yesterday. He expresses himself as well pleased with what he has seen of Texas.

The smiling face of that genial and always welcome agent of the Loving Publishing Company, Mr. R. C. Harrison, was seen upon the streets of the Fort, having just returned from an extended and very prosperous subscription trip among the citizens of Tarrant county. Reports from all sides good crops, plenty of money and they all took the GAZETTE when he met them. He is a ruler right.

The Purdy (Mo.) Herald has this to say of a young man formerly a valued attaché of the GAZETTE: "Will C. Simpson, a young disciple of the art preservative, who for the past year has been reconnoitering among the 'print shops' in the sunny south, has returned to the fold and is again under our protecting arm. Young ladies who don't have to ask their ma will be allowed the privilege of the office."

The GAZETTE has received information that Mr. M. Ikard, Jr., one of the well known cattle kings of Texas, was married Thursday, at 9 o'clock, to Miss Nellie Waits, in Florence, Alabama. The ceremony occurred at the residence of the bride's uncle, Mr. Lee Waits. He left on the same day for Texas and will be in this city probably to-day. The GAZETTE extends its congratulations to Mr. Ikard and his bride.

ON THE TRACK.

A Visit to the Driving Park—Flyers on the Turf—Nearing Completion.

To those who have never made a visit to the grounds of the Fort Worth Driving Park association, such a venture would create surprise and afford great pleasure. A representative of the GAZETTE went out a few days ago and had the pleasure of a stroll among the trotters and runners now there. There are at present twenty-one horses on the grounds, and all are in fine condition and improving rapidly. Fifteen of this number are trotting horses and ten runners. The track and grounds present quite an animated appearance in the early mornings, when the flyers are out taking their exercise and the heads of the jockeys can be seen bobbing up serenely from the quarter stretch all around the course and back again to the string. This is one of the scenes which always makes the heart of the turfman beat with joy, and the admirer of horse-flesh wish for some gut-edge pointers on the events of the coming meeting. A description of the grounds and course was given in these columns a short time since, and it is not necessary to repeat it here. We will only add that the improvements are going on rapidly and will be completed in time for the best meeting ever held in the state of Texas. The managers have constructed a high fence around the grounds and the "touts" can only take observations from the neighboring tree tops.

The place of the stables is one of the interesting features of the association and especially so to the trainers and jockeys. Each stable has fine, large and commodious stalls at one end of which there is a neat and comfortable room for the accommodation of all the attendants.

They are all provided with all the appliances necessary to comfort the soul of the trainer and his corps of assistants, either in victory or defeat.

The location of the grand stand will of course interest visitors more than the other details. In this the management has also displayed good judgment. The identical spot has not been selected, but it will be on an elevated and convenient place, and will be constructed in such a position that every spectator in it can see the horses from the beginning to the end, without being troubled by their tails. Those who have visited the race courses where such precautions were not taken will remember the annoyance caused by the necessity of rising to see the flyers as they turn into the home stretch, and will also rejoice that they will be relieved of the services of half a dozen deputy sheriffs to keep the spectators back from the railings.

There is every evidence that the races here this fall will be the most attractive in the state, and visitors will surely not be disappointed when they go out to the grounds. As the improvements go on they will be noted from time to time in the GAZETTE.

Advocates of prohibition need have no fears of "Prickly Ash Bitters," as it is a medicine, and by reason of its cathartic properties cannot be used as a beverage. It is manufactured from the purest in terials, and acts directly on the liver, kidneys, stomach and bowels. As a blood purifier it has no equal. Is pleasant to the taste, and effective in its action.

Complexions beautified by Glenn's Sulphur Soap.

Hill's Hair and Whisker Dye, 50 cents.

Hike's Toothache Drops cure in one minute.

At 10 o'clock this morning the parade of Turner's teams will start from his stable on Throckmorton street, and a pleasant drive in a bus, buggy, carriage, hack or phaeton, to the principal points of interest in the city is tendered the friends and acquaintances of the proprietor.

A healthy breakfast dish is Thurbus' cooked oats, to be found at Combs, Read & Co's.

The nutritive properties of Golden's Liquid Beef Tonic sustain the body without solid food. Golden's; no other.

SECOND EDITION.

THE FIREMEN'S BALL.

An Enjoyable and Successful Entertainment.

The heavy rainfall yesterday afternoon and continued disagreeable weather last night made many people remain at home, but notwithstanding this there was a large crowd at the firemen's ball and the evening was an enjoyable one to all who attended. The atmosphere had been cooled by the sudden change in the temperature and the dancing was not made objectionable on account of the heat. The orchestra in the center of the hall dispensed delightful music and the enthusiasm of those who indulged was unbounded. Golden's ball was a scene of mirth and gaiety from early evening till the morning hours approached, and all left with only one regret—that the end was not the beginning. Refreshments were served in the hall, and the tables were liberally patronized, every one seeming to desire to contribute something to the fire laddies. The voting was spirited, and the contest for the prizes interesting.

The gold badge to the most popular fireman was awarded to Stanley Thomason he receiving 72 votes.

Under New Management.

The Grand Central Hotel was opened yesterday under the management of Mr. B. B. Walker, who is a well-known and popular caterer. He will, with increased facilities, provide the public with better accommodations than ever. The Grand Central will soon become a favorite with the traveling public and the local custom.

Dahlman Bros. are just in receipt of fifty dozen new styles of Stetson hats.

Stetson's of the best quality and very latest style just received by Dahlman Bros.

Capt. Day left this morning on the Gulf, Colorado and Santa Fe train for an extended trip to New York and other Northern cities via Galveston, and steamer from that city to New York. Surely a fine trip at this season of the year, and the captain used his good judgment in making this selection (as in all things which he does). "Bon voyage" to you captain.

For repairing of all kinds go to Keller's carriage manufactory, Throckmorton street, near corner of Second.

The very latest style Stetson's hats just received at Dahlman Bros.

A Chicago Regatta.

Chicago, August 3.—The open regatta of the Chicago Yacht Club began shortly after noon to-day with a race for first-class sloops for the club cup. There were three entries: the Idler and Countess of Chicago, and the Oriole of Toronto. The course was fifteen miles to windward and return, to be sailed within seven hours or to be declared no race. The Idler was able to sail closer to windward than the others, and turned the stake boat first. The Oriole came next, but drifted so much as to be compelled to make an extra tack in order to round the stake boat, thereby losing much time. The Idler turned the stake boat in two hours and fifty-five minutes. On the run home she became becalmed, and only reached the harbor at nine o'clock to-night, so the race was declared off.

Returned to His Desk.

Washington, August 3.—The first defection from the ranks of the striking operators in this city occurred to-day. A son of Night Manager Young, who quit work with the first detachment, returned to his desk. The brotherhood say they have been expecting this, and are not surprised. They keep a bold and confident manner, and to-night adopted a series of resolutions denouncing by name four of their former associates who remained at work; two of them, they say, are members of the brotherhood, and the others promised to strike.

Confederate Pulp.

Washington, August 3.—There has recently been transferred from the war department for abandoned property into the treasury department a large quantity of Confederate scrip, bonds, etc., representing several millions of dollars, which it is said is now to be manufactured and converted into pulp on the order of Secretary Folger.

British Excursionists.

New York, August 3.—The steamship Adriatic arrived to-day from Liverpool. Among her passengers are ladies and gentlemen from England and the continent, guests of Rufus Hatch. During their visit here they will make an excursion to Yellowstone park.

Ready for the Strike.

Philadelphia, August 3.—Officers of the Philadelphia & Reading railroad company have arranged a system of telegraph service, should the telegraph operators be ordered out by the brotherhood. The company states they are prepared at a moment's notice to meet the strike.

A Colored Parson in Trouble.

Newburg, N. Y., August 3.—Rev. J. V. Burg, colored, has been suspended from the ministry on a charge of seduction.

THE FENCE CUTTERS.

A Wide-Spread Organization Determined to Have Free Pasture Over the State.

The adjutant-general's chief clerk is in receipt of a letter from a man in Shackelford county reporting that the stock raising district are cutting wire fences there and had just cut two and a half miles of his fence, cutting it at every post. He stated in his letter he had rented and leased some land belonging to the Baylor Orphan Asylum and had made gates and openings for all roads so that the enclosure worked no hardship. The report received from various quarters by the adjutant general indicate that there is a wide-spread organization to destroy the wire fences around large wire pastures. This is in general occurrence by the determination of the smaller stock raisers to have free pastures over the whole country. These men have no lands of their own of any considerable amount, and have been engaged in raising stock on public and private lands. Now they find the more wealthy are buying up large districts of country, which being inclosed with wire fence, deprives the small men of adequate pasturage for their growing flock. They also complain that the wealthy stockmen after inclosing large pastures turn out their stock on uninclosed land during the spring and summer until the public pastures are grazed down and then turn their stock into their inclosures where the grass has not been used, leaving the stock of the smaller stockmen to winter upon pastures denuded of grass. State troops are utterly unequal to the task of protecting the large pastures unless their number was increased to thousands, and the trouble must be settled by local authorities. It is likely the stock growing country will, for some time, be troubled over this growing practice of fence cutting.

Stetson's of the very latest style just received at Dahlman Bros.

CRAWFORD.

Major Penn's Coming Camp-Meeting. Budget of Brevities.
